

EDUCATION

Simon Fraser University

Expected Graduation: December 2027

Bachelor of Science: Interactive, Art & Technology

Concentrations: Design & Development for Web & Mobile; AI & Data Science for Human - Centred Systems; Critical Making

Additional Education: 1 year of experience in Computing Science coursework

SKILLS

Design

- UI/UX Design and Prototyping (Figma, Framer)
- 3D asset integration (Maya Autodesk),
- Visual Design (Illustrator, Photoshop, Indesign)
- Motion Design and Video Editing (After Effects, Premiere Pro)

Development

- Web Development (HTML, CSS, JavaScript)
- Mobile and Software Development (Java, React Native)
- Game Development (Unity)
- Git Collaboration
- Game Design (Processing, Java)

Other Skills

- Effective Team Member
- Presentation Skills
- Time Management
- Communication
- Handling Several Tasks Simultaneously
- Fluent in Russian

EXPERIENCE

Design&Develop Project - SFU Pet Adoption Website

November 2025

- Spearheaded the visual design and user interface strategy in Figma, crafting an intuitive and aesthetically pleasing experience for browsing and learning about adoptable pets, which received positive user feedback.
- Translated high-fidelity mockups into functional code, taking ownership of complex front-end components using HTML and CSS.

LIUDMILA KOLOMINOVA

-
- Acted as a key technical resource within a 4-person team, mentoring peers on implementation details and conducting code reviews to ensure cross-browser consistency and adherence to design specifications.
 - Delivered a fully responsive, collaborative project from initial design to final development, culminating in a high grade and recognition for its clean user experience and cohesive visual identity.

UI/UX Design Project - Multi-Brand Landing Page Design Sprint

October 2025

- Executed a rapid, 4-day design sprint, creating distinct, high-fidelity landing page concepts for four fictional companies across different industries.
- Owned the end-to-end design process for each concept - from initial layout ideation to final visual design in Figma - tailoring colour, typography, and visual hierarchy to reflect each unique brand identity.
- Applied core UI/UX principles to solve a common user goal across varied contexts, demonstrating adaptability and a user-centered design approach.
- Delivered a portfolio of four polished, responsive mockups that balance aesthetic appeal with functional clarity, showcasing an ability to iterate quickly and explore diverse visual styles.

OTHER EXPERIENCE

Florist - Floral Store

January 2023 – July 2023

- Provided personalized customer service by helping clients select flowers, plants, and gifts for special occasions.
- Listened carefully to customer preferences to create custom bouquet arrangements that met expectations.
- Processed sales transactions and phone orders accurately while maintaining a friendly, welcoming attitude.
- Supported team operations by keeping the workspace clean, organized, and ready for customers.

Volunteer - Amazon Day Coding Activity

January 2023 – July 2023

- Guided children through hands-on Python activities, ensuring a fun and safe environment.
- Demonstrated patience and clear communication.
